## Short cuts and bobs to inspire you to a new style

Hi I'm Trixie. I have spent some time searching around the internet for cute ginger/redhead haircuts to inspire and give you creativity for a short haircut. As you will see my carefully selected cuts are absolutely delicious. I want to show you that short cuts can be beautiful and sexy and easy to look after.

Hope these inspire you to try a short cut. I've collected a nice selection from bobs down to very short cuts and then there's my ultimate Raven for the best sexiness and style.

Why not show them to your friends and ask them what they think will suit you then you will know. Print out and take to the hairdresser.

## Short Raven Bobs

---

Cute chick with a short bob cut and Not dead short. Just nice

Gorgeous short nape compliments the thick ginger shock beautifully.

Cute bob slightly longer with texture

Buzz back bob. The contrasts are nice! I like the difference between bob and buzz. It's dead nice on redheads for the thick and heavy bob weight.

Short banded bob making for a young style

Don't mind this chicky with depression. This is 'micro bob' or sometimes call a bowl and the bob is cut right round the head and buzz around the ear and back for nice tidiness and high contrast. My chick friend calls it a monk cut. Easy to keep if time is short in your days.

This is my favorite not too short cut for red heads. I like the shortness around the ears and the thick top hair. Redheads are lucky to have such thick and succulent hair.

## Short Raven Haircuts –not too short

---

Buzz or scissor cut in the back and a short on top. Long earrings looks nice when there's buzz. High contrast elegant cut

Asymmetric stacker bob which is short in the back. Can be cut soft feather or buzzed for lovely contrast.

A twist on the short sides and nape. Big earrings complete the look.

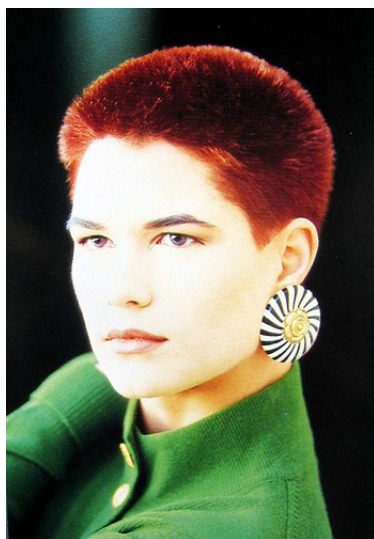

Don't these buzz styles look nice, not harsh? Just a bit and it's dead nice.

## Very short haircuts for reds and ginger

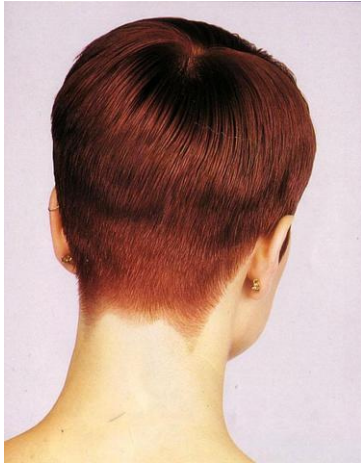

---

Urban look for thick hair. Pixie haircut and it's chopped all short all over. This won't take any time to look after.

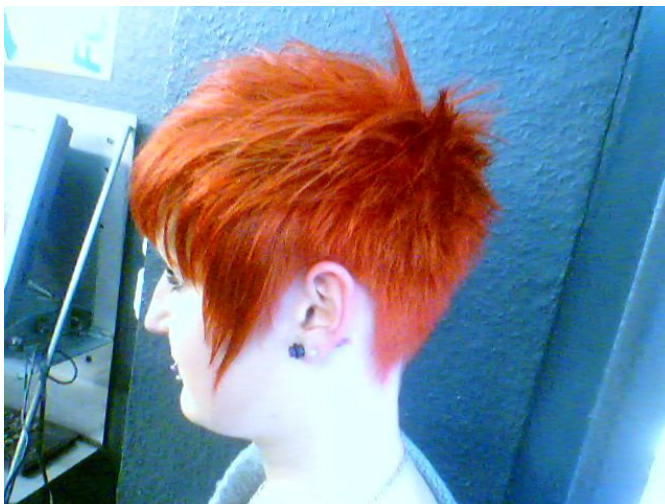

This is ultra short haircut is clean and sophisticated and confident and could run your fingers all through it. Any good hairdresser will be able to perform this cut just print out and show them this. You'll love the simplicity. So why not make the move and make the cut? You'll love it

Nice and short in the back for this style. Keep the hair off your collar

This ultra short hair back has been cut really close. (and yes it is dyed red cz none hair is like that naturally). Smart hair for a professional person to make sure you're taken seriously. A good short haircut will give you respect.

Hair off your neck then this style tucks it in tight around the back and feather funk in the front. Lovely color and it's nice and tight around the ears as well.

**Have you found some nice ideas?** Why not try it you can see how lovely they look and it's so easy to look after. The only thing you need to worry about is your reaction because others will be wowed.

Ask your hairdresser at your next appointment if one of these lovely cuts would suit you and go for it.
